## PROFIL

IT Support and Onsite Engineering professional with over two years of experience in IT infrastructure, technical support, and security systems. Experienced in maintaining Windows and Linux environments, troubleshooting hardware, software, and network issues, as well as managing enterprise surveillance and access control systems. Currently responsible for supporting interactive multimedia systems, maintaining over 100 CCTV cameras connected to two Network Video Recorders (NVRs), and ensuring the reliable operation of Access Control Systems (ACS). Skilled in LAN/WAN networking, MikroTik RouterOS, virtualization with Proxmox VE, infrastructure monitoring using Grafana, and fiber optic installation and maintenance. A proactive and adaptable professional with strong analytical, problem-solving, and communication skills. Passionate about building secure, reliable, and efficient IT infrastructure while continuously expanding expertise in networking, virtualization, and cybersecurity.

## EDUCATION

■ STMIK Bina Sarana Global 2019  
Teknik Informatika

## SKILL

- Problem Solving
- IT Documentation
- Hardware & Software Troubleshooting
- Network Troubleshooting
- Server Maintenance
- Virtual Machine Deployment
- Fiber Optic Splicing & Patchcord Installation
- IP Camera Configuration
- Fiber Optic Splicing
- Access Control System (ACS)

## EXPERIENCE

### ■ PT Nusantara Compnet

By Project Customer PT Pertamina Persero

- Engineering Onsite** Apr 2026 – Oct 2026
- Managed and maintained 100+ CCTV cameras connected to 2 Network Video Recorders (NVRs), ensuring continuous surveillance and system availability.
  - Administered and maintained Access Control Systems (ACS) to support secure access management.
  - Supported and maintained interactive multimedia systems used in daily business operations.
  - Diagnosed and resolved hardware, software, and network-related issues.
  - Performed preventive maintenance and system health checks to minimize downtime.
  - Coordinated with vendors and internal teams to resolve technical incidents.
  - Maintained documentation for IT assets, CCTV infrastructure, and system configurations.

### ■ PT Metaglobal Solusindo

- IT Infrastruktur** Mei 2024 – Apr 2026
- Installation and configuration of Mikrotik routers, Wifi, switches, and Proxmox virtualization.
  - Troubleshooting network, hardware, and software issues.
  - Maintenance of CCTV systems and firewalls.
  - Planning IT site visits and managing IT asset inventory.
  - IT system Ticket and asset documentation.
  - Network cabling installation, including pulling and organizing UTP cables for structured cabling systems.
  - Project management planning for IT infrastructure deployment, including scheduling, resource allocation, and coordination with internal teams and vendors

By Project Customer PT BeaCukai Lab

- Project Management** Aug 2024 – Jan 2025
- Coordinated the implementation of IT infrastructure projects for the Customs Laboratory, ensuring project objectives and operational requirements were achieved.
  - Planned project schedules, coordinated technical teams, and monitored project progress to ensure timely completion.
  - Collaborated with stakeholders to gather requirements, provide project updates, and ensure business needs were met.
  - Supervised the installation and deployment of network infrastructure, CCTV systems, Access Control Systems (ACS), telephone outlets, and other supporting IT infrastructure.
